Add on from the lab's dial page. I added the call feature and modified the styling of the buttons. When you click call, the message will be switching between these four in a sequence. "Calling xxx", "Calling xxx . ", "Calling xxx . . ", "Calling xxx . . . ". You can click end call button, and the label will show a red "Call ended". When you starts dialing again, the color of the label will change back to black and you can continue dialing other numbers.
